

NEW EDITION

## THE ÉCRINS NATIONAL PARK

### INFORMATION

Easily reached from Grenoble, the Massif des Écrins in the French Alps is one of the most spectacular in all the Alps. With bold mountains hung with glaciers, and more than 100 summits over 3000m high, the national park also holds a treasure trove of alpine flowers, while romantic old villages and hamlets huddle in the valleys. This is your backdrop to a wealth of memorable walks, each one of which exploits the awesome views.

For this second edition of *The Écrins National Park*, Kev Reynolds has chosen the best routes from a variety of different valley bases throughout the district. All the information you need for an active holiday of a lifetime will be found between these covers.
