

Walking and Trekking on Corfu

May 2017

p128 at the end of the beach it's a bit of a tricky clamber up to the concreted lane due to sea erosion.

(Thanks to Liz Kantor, May 2017)

July 2016

Walk 9: the return loop is not currently possible due to a landslide. Return the same way.

p159 Corfu Trail Stage 7: after descending the kalderimi an extensive landslide has caused problems. After going right at the lane and then first right, you must branch left at the next fork for a diversion that leads towards the coast for a clear lane the rest of the way to Agios Georgios north.

(Thanks to Sean Whitaker)

May 2016

p26 The 1:56,000 Avnasi map (available from Stanfords) is reportedly more up-to-date for the walking trails.
