

# The GR20 Corsica

## July 2017

### Website Changes

The PNRC has changed its website address and has also launched a new online booking system for the refuges and campsites. The PNRC website is now [www.pnr.corsica](http://www.pnr.corsica) and the booking website is now [reserver.sitecresa.fr/centraleres/parcnaturel](http://reserver.sitecresa.fr/centraleres/parcnaturel). It is also worthwhile clicking on the link titled 'punaises de lit information randonneurs', which explains all about the ongoing bedbug infestation in the refuges. To discuss the trail with other users, see [corsica.forhikers.com/forum](http://corsica.forhikers.com/forum).

### Reconstruction of Refuges

A major project will start during 2018, where the basic GR20 refuges will be reconstructed, expanded and improved. This will probably take place at the rate of two or three refuges per year. While building work is taking place at refuges, accommodation is likely to be available in large, military-style tents. All other services, such as camping places, meals and the sale of food and drink will be unaffected.

## April 2017

**Stage 10 - Vizzavona to Bergeries d' E Capanelle** - The very basic PNRC Refuge d' E Capanelle is closed for roof repairs during 2017. Two private refuges lie only a few minutes walk away - the busy U Fugone, tel 04 95 57 01 81, and the quiet U Renosu, tel 06 30 21 49 05.

## March 2017

On 25th March 2016, the Refuge d'Asinau was discovered to have been gutted by fire. No-one knows how or why this happened, but it wasn't available for the 2016 season. It had been earmarked for demolition and rebuilding, and the latest news suggests that a new refuge will be in place by the middle of May 2017. Check the PNRC Randoblog for further developments... <http://randoblogpnrc.blogspot.co.uk>
